A Nose is a Nose is a Nose: A Component Tasting

Sunday, September 9th, 4-6pm @ The Artisan Wine Gallery \$30

A look at how wine and wine-making is influenced by *terroir* (soil composition) and *typicity* (the degree to which a wine reflects its varietal origins). To enhance the experience, we will assess a variety of wines side-by-side with an assortment of herbs, spices, rock composites, fruits, etc. that exemplify the components often reflected in the nose and on the palate. We will also talk about the basics of Biodynamic and Organic wine-making.

Old World vs. New World

Sunday, September 16th, 4-6pm @ The Artisan Wine Gallery \$30

Here we will be taking 3 grape varietals around the world to examine the differences between Old World and New World approaches to the same grape in different climates and wine-making styles. This workshop is designed to help you more readily identify the grape varietals and styles of wine-making you enjoy, as well as offering some advanced food and wine pairing techniques that will help make your next dinner party or restaurant experience unforgettable.

Tasting will feature Old World and New World examples of three different grape varietals. There will be individual cheese pairings from each country to match the wine.
